### **About Azurn International Limited**

Azurn is a global provider of ICT Convergence Business Solutions that boost workplace efficiency, customer service and educational enablement.. Its vision is to "empower our communities". The company's core capabilities lie in unified communication and online publishing technologies in the ICT sector.

The company's patented communication technologies seamlessly combine a wide range of voice, data and video sources that enable real time multi-party interactivity via its core platform MERLIN. The company's publishing technology and products enable large volumes of printed material to be converted to XML content for online distribution and access.

Headquartered in Melbourne, Australia, Azurn has a direct presence in 5 markets – Australia, Singapore, India, USA and the UK, and operates world-class development centres in Bangalore, Pune and Coimbatore in India. The company has over 370 employees worldwide.
